## PROFESSIONAL SUMMARY

---

Full-Stack Developer with 4+ years of experience designing and shipping scalable web applications using Angular and Ruby on Rails. Progressed from Software Developer Intern to Lead Developer at Commudle, demonstrating sustained technical growth and end-to-end delivery ownership. Proven expertise in payment integration (Razorpay), headless CMS (Sanity.io), analytics instrumentation (Google Tag Manager), and Agile team leadership. Active hackathon mentor and technology speaker. Seeking Senior SDE or Lead Developer roles at product companies, MNCs, or edtech firms, open to remote.

## TECHNICAL SKILLS

---

**Languages:** JavaScript, TypeScript, Ruby, HTML5, CSS3, SCSS, SQL

**Frameworks & Libs:** Angular (v12–17), Ruby on Rails, Tailwind CSS, Bootstrap, Nebular UI, jQuery

**Tools & Platforms:** Git, GitHub, GitLab, Figma, Google Tag Manager, Sentry, NPM, Sanity.io, Razorpay API, Schema.org

**Practices:** Agile / Scrum, REST API Design, Component-Driven Development, Code Review, Performance Optimisation

## PROFESSIONAL EXPERIENCE

---

### Lead Software Developer – Commudle, New Delhi

May 2024 – Present

- Architect and deliver scalable full-stack features using Angular and Ruby on Rails for a developer community platform serving tens of thousands of active users.
- Designed and shipped end-to-end Razorpay payment integration, enabling platform monetisation and streamlining transaction workflows.
- Lead Agile sprint planning, stand-ups, and retrospectives for the engineering team, consistently achieving sprint goals and reducing backlog churn.
- Mentor junior and mid-level engineers through structured code reviews and pair programming, raising overall team velocity and code quality.
- Partner with product managers and designers to translate requirements into production-ready features from wireframe to deployment.

### Software Developer – Commudle, New Delhi

Aug 2022 – Apr 2024

- Built and optimised a reusable Angular component library, improving frontend load times by 20% and accelerating feature development cycles.
- Integrated Google Tag Manager for real-time marketing analytics and user-behaviour tracking, eliminating manual redeployment overhead for tag updates.
- Authored and maintained RESTful API endpoints in Ruby on Rails, improving backend reliability and response consistency across services.
- Delivered iterative, user-centric features through Agile sprints in close collaboration with design and product teams.

### Software Developer Intern – Commudle, New Delhi

May 2022 – Jul 2022

- Developed responsive Angular web interfaces serving 10,000+ monthly active users, improving UI consistency and cross-device compatibility.
- Integrated Sanity.io as a headless CMS, reducing content update turnaround by 30% and fully decoupling content management from code deployments.
- Shipped production-ready, peer-reviewed code within the first month by following scalable frontend architecture best practices.

### Technical Support Executive – Netplus Broadband PVT LTD, Ludhiana, Punjab

Dec 2020 – Apr 2022

- Resolved 50+ ISP server and network connectivity tickets daily, maintaining strong customer satisfaction ratings and minimal service downtime.
- Managed and trained a team of 4 support technicians, streamlining workflows and improving average ticket resolution time by ~25%.

- Maintained and analysed internal databases of service reports and outages to identify recurring patterns and prevent future incidents.

#### Teaching Assistant – Coding Ninjas, New Delhi

Apr 2020 – Aug 2020

- Mentored 50+ students in Node.js and frontend development, supporting debugging sessions and improving project completion rates.
- Guided learners through hands-on full-stack assignments, strengthening their conceptual understanding and practical coding skills.

#### Social Media Handler – BBSBEC, Sirhind, Punjab

Nov 2019 – Nov 2020

- Managed the college's official Facebook and Instagram channels, growing student engagement by ~40% through consistent, creative content.
- Coordinated with the marketing team to amplify event promotion, significantly increasing event participation through online outreach.

## COMMUNITY LEADERSHIP & SPEAKING

---

### Hackathon Mentor & Judge

- Mentor: Code Nakshatra 2.0 (Code Rangers), TIIPS Greater Noida · May 2026 (24-hour hackathon, 200+ participants).
- Judge: The Dev Arena: Feature Enhancement Challenge (GDG × CULMYCA, JC Bose UST), Faridabad · Apr 2026 (HackerEarth-powered competition).
- Mentor: HackNagpur 2.0 (GDG Nagpur) · Jan 2026 (24-hour Adaptive Systems hackathon).
- Mentor: HackFest (GDG Cloud New Delhi × Agora) · Nov 2025 (24-hour online hackathon).

### Public Speaking

- Speaker: “Get Started with AI” Workshop, Meerut Coders · Aug 2025 (Online webinar introducing AI tools and practical workflows for developers).

## EDUCATION

---

### Bachelor of Technology (B.Tech) in Information Technology

2016 – 2020

Baba Banda Singh Bahadur Engineering College (MRSPTU), Punjab, India

## CERTIFICATIONS

---

- **Angular Basics:** HackerRank (May 2025)
- **SQL Basics:** HackerRank (May 2025)
- **Back End | Full Stack Web Development (Node.js):** Coding Ninjas (Jun 2019 – Jan 2020)
- **Front End | Full Stack Web Development:** Coding Ninjas (Jun 2019 – Sep 2019)
- **Java Foundations with Data Structures:** Coding Ninjas (Jul 2018)

## KEY ACHIEVEMENTS

---

- 1st Place, Web Design Competition, Baba Banda Singh Bahadur Engineering College (Sep 2018).
- Main Leader, Institution of Engineers (India) Student Branch + IEEE Student Branch Member (2017–2020).
- Recognised as Best Organiser across multiple technical workshops and seminars.
- Technical Expert, College Photography Club, led technical operations and digital content initiatives.
